What We Are Learning!

Dear Preschool Families,

We are having a wonderful time learning and growing together! This week, we are focusing on important classroom routines, listening skills, and safety. These skills help us become happy, safe, and responsible learners.

1

How to Line Up

We are practicing walking in a line, keeping our hands to ourselves, giving friends space, and walking safely.

2

How to Sit & Work

We are learning how to sit in our learning space, keep our bodies calm, and work on one activity at a time.

3

Circle Time

We are learning how to sit together during circle time, participate in songs and activities, and listen to our teacher and friends.

4

Playground Safety

We are learning how to use playground equipment safely, take turns, keep our hands to ourselves, and follow playground rules.

5

Listening to Others

We are practicing looking at the person who is speaking, keeping our voices quiet, and waiting for our turn to talk.

Our Goal

We are learning that being a good friend and student means listening, being kind, staying safe, following directions, and helping one another.

Try It at Home!

Families can help by practicing:

- Walking instead of running indoors.
- Waiting patiently for a turn.
- Listening when someone is talking.
- Sitting calmly for a short activity.
- Using kind words such as please, thank you, and excuse me.

Thank you for helping us build these important skills at home and at school!

With love,

Mrs Stark
